GREENFIN

N-SERIES LEVELLERS, LUTES, AND RAKES

CATALOG

**Robust landscaping tools for
transferring, levelling out and
modifying asphalt, concrete, gravel,
macadam, sand and soil!**

GREENFIN

by GrafiPro is a company specialising in aluminium and plastic composite materials. Our areas of expertise includes development, planning, production and sales of materials and components, as well as finished products.

With over 30 years of experience, we are familiar with technical characteristics of aluminium, its manufacturing technology and different surface treatment methods. So if you have a question on aluminium - ask us, it does not cost anything!

More than 20 years ago, we started manufacturing tools for demanding professional use. The high quality of our products is guaranteed by our thorough product development in cooperation with leading companies in the Finnish infrastructure sector. Study our product range and contact us so that we can determine which tools best suit your needs!

We offer our customers:

- Quality
- Uniqueness
- Personal approach
- Expertise
- Fast reaction times
- Flexibility

N-series tools:

- Manufactured from durable and corrosion-resistant light-weight aluminium alloy
- 52 different options
- 26 different replaceable blades
- The blade can be used on both sides
- Arm powder coated, orange RAL 2004. A non-slip rubber grip also available for the shaft
- Ideal for construction companies, road, environmental and sports field builders, gardens, green units, golf, golf, tennis and sports courts, ski resorts, property maintenance, housing companies, households and farms
- **Optional countersunk screw mounting – a breeze to clean!**
- Tested both in laboratory tests and on site
- **Modular, durable, light**

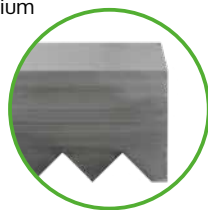

KA-RAKES

Robust landscaping tools for demanding applications!

For transferring, levelling out and modifying gravel, macadam and sand

- Manufactured from durable and corrosion-resistant light-weight aluminium alloy
- Two-metre shaft; a non-slip rubber grip also available for the shaft
- Blade width 560 mm and 720 mm
- **Optional countersunk screw mounting**
- Both sides of the blades can be used
- Parts can also be delivered separately

SHAFTS AND BRACING COMP

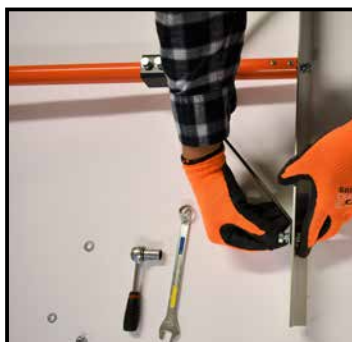

Product	Product code	EAN code	Shaft length	Coating	Note	Weight/kg
Shaft orange 2 m	G-28 N	6430026624692	2 m	RAL 2004	Powder coated	0.96
Shaft orange 2 m + grip	G-28 KN	6430026624944	2 m	Rubber grip	Grip	1.11
Bracing components	G-32 AL	6430026624715	-	RAL 9005	Painted black	0.27

EASY AND FAST TO ASSEMBLE

1. First, attach bracing components to the shaft with hex bolts. Ensure that parts are fastened under the right angle.

2. When the bracing components are in place, attach the shaft to the blade in the middle with a screw driver. Attach the blade to the bracing components by locking the bolts in place.

3. Make sure to tighten all the screws before the first use!

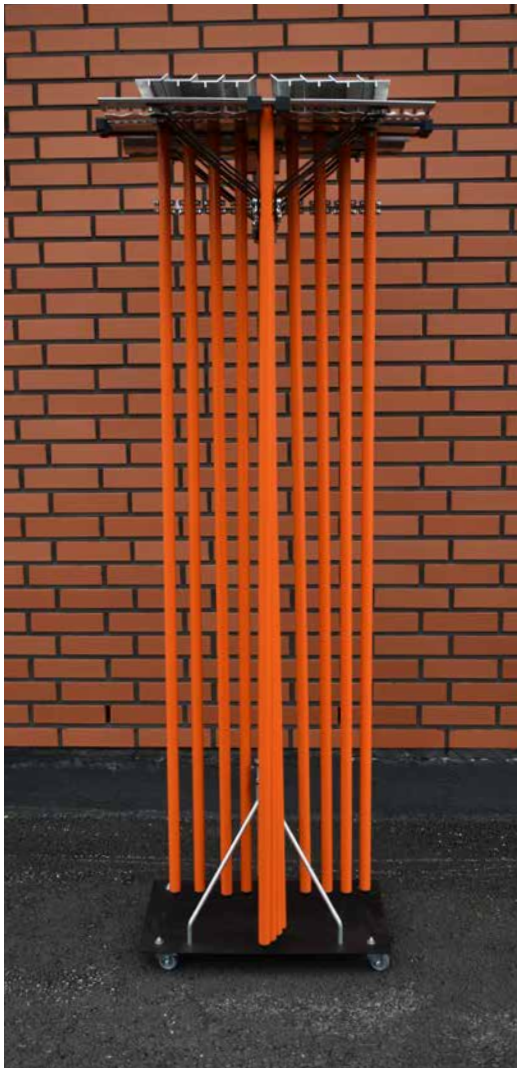

SALE AND DISPLAY STAND

The display stand fits for example:

- 8 tools without bracing components and
- 8 tools with bracing components

- Floor space 0,3 m²
- Measurements 500 x 600 x 2200 mm
- Lockable wheels
- Weight without tools 15 kg
